

Kara Kara Conservation Management Network supports the Draft Joint Management Plan for the Dja Dja Wurrung Parks Strategy especially as it relates to the area of our interest, Kara Kara National Park.

The proposed overlay changes to protect Aboriginal cultural and natural heritage also covers some areas of Creekline Grassy Woodland and Alluvial Terraces Herb Rich Woodland Mosaic Ecological Vegetation Classes both of which are listed as endangered so adding to the reasons for the change. This has our strong support.

Kara Kara National Park forms the core of our area of interest and we look forward to working with the park managers

Yours Faithfully

John Boadle  
Joint Facilitator
